It is time for another Simplex Propagation Net! This is a reminder to join our Thursday Simplex Net tonight, October 28, at the usual time and frequency. We also announce what we hope will be our standard format for the foreseeable future.

Meeting format:

Propagation Net - If you have been with us for the past few nets, you know that we have focused on developing an application to help hams understand the propagation abilities of their 2-m radios by simplex. The key questions are 1. How well can others hear us, and 2. How well can we hear others. The current release of the app is called version "Wright Flyer". It is much optimized over what we had last month. Thanks to everyone who has provided feedback and time to help with this development. Please see the information below and visit the website to join us for the pre-net Zoom, and for the link to access the signup link. We are asking folks to please log in using before the net to help eliminate interference during the net.

Pre-net Zoom Meeting at 6:15 - 7:00 pm. - This is a causal Zoom meeting for general organization, group discussion or instruction discussion, regarding simplex related topics. The link to the meeting is found on the main page of our website, by clicking here: simplexhouston.com. If you have questions or are new to the simplex net, we are here to answer any questions you have.

The Greater Houston Simplex Network meets at 7:00 pm on 4th Thursday of each month. A conversational style net will be held on the All nets are planned for 7:00 pm on a frequency of 146.540 MHz (with a backup frequency of 147.540 MHz.) Tones are not used, and participants are strongly advised to turn your squelch off or fully down in order to allow them to hear others.
