

UF GEOGRAPHY - 3 OPEN FACULTY POSITIONS

Assistant Professor in Human Geography: Economic or Political

The Department of Geography at the University of Florida, College of Liberal Arts and Sciences, invites applications for a full-time, nine-month, tenure-accruing position, at the level of Assistant Professor to begin August 16, 2019. The department seeks an outstanding candidate with expertise in **Human Geography**, more specifically the areas of **Economic or Political Geography**, who will complement existing strengths in the department and across campus. While we welcome candidates from a broad range of specializations, we especially encourage applications from candidates whose scholarly work critically engages with topics such as Globalization, International Trade and Monetary Flows, Immigration and Labor Markets, Spatial Economics, Global Production Networks, World Systems Theory, and Global Cities. Priority will be given to candidates with expertise in quantitative methods. Potential to engage in interdisciplinary collaboration with the University's research centers and institutes e.g., African Studies, Latin American Studies, is considered advantageous.

Primary responsibilities include high-quality research in **Economic or Political Geography** and a 2-2 teaching assignment, particularly developing introductory and advanced courses at both undergraduate and graduate levels. The successful applicant must be able to teach Economic Geography and Global & Regional Economies. Applicants should have a strong record of research and scholarly activities within these broad fields; experience and demonstrated commitment to excellence in teaching; and a proven ability to communicate effectively with students, professionals, and the general public. Additionally, potential to engage with the University of Florida's 'Beyond 120' <https://www.advising.ufl.edu/beyond120/> and 'Quest' Programs <http://undergrad.aa.ufl.edu/uf-quest/uf-quest-trials/> would be considered an advantage and should be addressed in the application materials

Assistant Professor in Environmental Change, Climate Change, Sustainability

The Department of Geography at the University of Florida, College of Liberal Arts and Sciences, invites applications for a full-time, nine-month, tenure-accruing position, at the level of Assistant Professor to begin August 16, 2019. The department seeks an outstanding candidate with expertise in any of the following fields **Environmental Change / Climate Change / Sustainability**, whose expertise is interdisciplinary and will complement existing strengths in the department and across campus. The department seeks dynamic, highly innovative candidates across a broad range of specialties that bridge physical and social sciences. A particular interest in; the use of climate and environmental data, models and projections in societal applications, adoption of sustainable practices, adaptation, increasing resilience, implementation of policy, and/or planning at the regional level, is desirable.

Primary responsibilities include high-quality research in any of the listed fields of **Environmental Change/ Climate Change/ Sustainability** and a 2-2 teaching assignment, particularly developing introductory and advanced courses at both undergraduate and graduate levels. Applicants should have a strong record of research and scholarly activities within these broad fields; experience and demonstrated commitment to excellence in teaching; and a proven ability to communicate effectively with students, professionals, and the general public. Additionally, potential to engage with the University of Florida's 'Beyond 120' <https://www.advising.ufl.edu/beyond120/> and 'Quest' Programs <http://undergrad.aa.ufl.edu/uf-quest/uf-quest-trials/> would be considered an advantage and should be addressed in the application materials.

12-month Lecturer, Medical Geography in Global Health

The Department of Geography at the University of Florida, College of Liberal Arts and Sciences, invites applications for a full-time, 12 month, renewable, non-tenure-track position, at the level of Lecturer to begin August 16, 2019. The department seeks an **outstanding candidate with expertise in the field of Medical Geography in Global Health (MGGH), whose expertise is interdisciplinary and will complement existing strengths in the department and across campus. This position is ideal for a dynamic, highly innovative instructor and program builder who will substantially contribute to supporting and building a rapidly growing program in Medical Geography - our fastest growing undergraduate degree. Primary responsibilities include teaching, specifically co-developing a series of introductory and intermediate MGGH courses (e.g. Geography of Health, Medical Geography) at the undergraduate and graduate levels. Additional duties will include assisting with the student learning outcomes assessment, certificate administration, and departmental outreach and service. The appointment is renewable and is eligible for promotion. This position will be fundamental in the advising and oversight of majors and certificate programs, and in outreach to the broader community.**

Applicants should have experience and demonstrated commitment to excellence in teaching; and a proven ability to communicate effectively with students, professionals, and the public. Interest in innovative pedagogies and program building, within an exciting and growing program, which is well supported by the larger University, is essential. Additionally, potential to engage with the University of Florida's 'Beyond 120' <https://www.advising.ufl.edu/beyond120/> and 'Quest' Programs <http://undergrad.aa.ufl.edu/uf-quest/uf-quest-trials/> would be considered an advantage as the successful applicant will develop Grand Challenge courses as part of these new initiatives for early stage undergraduates, to showcase the medical geography major, minor, and certificate tracks. The teaching load would be 3-3-2, across fall-spring-summer each academic calendar year.

UF Geography:

The Department of Geography has 17 active faculty members, who conduct teaching and research in a broad spectrum across our four focus areas, which are Geospatial Analysis & Techniques, Medical Geography in Global Health, Earth System Science, and Global Environmental & Social Change. It offers BS/BA, MS/MA, and PhD degree tracks, including online and distance learning options for coursework. The department has two computer-lab classrooms and provides a high-speed on-line computing environment via UFAPPs (<https://info.apps.ufl.edu/>), where any student and faculty can access software applications, such as ArcGIS, GeoDa, ENVI, ERDAS, MATLAB, and SPSS, from any computing device, from any location, at any time. High Performance Computing facilities are available on campus. Applicants are encouraged to visit the website (<http://geog.ufl.edu/>) to learn more about the Department of Geography. For more information on each position, click on the related interfolio link and the full ad and application information will be available.
