Course

Lecture

Pedro A. Aranda Gutiérrez

November 22, 2026

Outline

1 Section

Frame

$$f(x) = (x+1)^2 \tag{1a}$$
$$= x^2 + 2 * x + 1 \tag{1b}$$

Two aligned equations

- In group 1 you can find two equations, in group 2 we have the same equations, but without additional spacing.
- Eq. 1a is developed in eq. 1b

$$f(x) = (x+1)^2 \tag{2a}$$
$$= x^2 + 2 * x + 1 \tag{2b}$$
