## **Typical Characteristics**

| NLGI Grade   | 777-1 ES   | <b>777-2 ES</b> |
|--|------------|-----------------|
| Worked Penetration, ASTM D217, mm/10               | 310-340    | 265-295         |
| Thickener Type                                     | Lithium    | Lithium         |
| Dropping Point ASTM D2265, °C/°F                   | 193/380    | 204/400         |
| Base Fluid Properties                              |            |                 |
| Viscosity, D445, D2161:                            |            |                 |
| @ 40 °C, cSt                                       | 951        | 951             |
| @ 100°C, cSt                                       | 85.5       | 85.5            |
| @ 100°F, cSt/SUS                                   | 1072/4966  | 1072/4966       |
| @ 210°F, cSt/SUS                                   | 88/411     | 88/411          |
| Flash Point, ASTM D92, °C/°F, COC                  | 260/500    | 260/500         |
| Water Washout, ASTM D 1264:                        |            |                 |
| @ 79℃/175℉, % loss                                 | 5.0        | 4.5             |
| Rust Prevention Properties, ASTM D 1743, rating    | Pass       | Pass            |
| Emcor Rust Test, ASTM D6138, IP 220/85, Rating     | 0/0 (Pass) | 0/0 (Pass)      |
| Worked Penetration, ASTM D217, 100K strokes, mm/10 | 314        | 287             |
| % change from 60 strokes                           | 6          | 8               |
| Roll Stability, ASTM D 1831, points change         | 10         | 5               |
| Wheel Bearing Performance, ASTM D1263:             |            |                 |
| Leakage, grams                                     | 1          | 0               |
| Deposits   | 0          | 0               |
| Timken EP Test, ASTM D2509, OK Value, kg/lbs       | 27/60      | 27/60           |
| Four Ball EP Test, ASTM D2596:                     |            |                 |
| Load Wear Index, kg                                | 100+       | 100+            |
| Weld Load, kg                                      | 620        | 620             |
| Castrol Molub-Alloy Solids, Grade Classification   | Heavy Duty | Heavy Duty      |

Gear Oil EP 90 is a high quality monograde, extreme pressure gear oil basically suited for use in hypoid rear axles and gear boxes. <u>PRODUCT BENEFITS</u>

Lower power consumption

Good protection against corrosion

Reduced wear

## **CHARACTERISTICS**

| Properties  | Gear Oil EP 90              |
|---|-----------------------------|
| Appearance  | Bright & Clear brown liquid |
| Kin.Visc @100 <sup>0</sup> C                                    | 17.5 -21                    |
| Flash Point (COC) <sup>0</sup> C                                | 180 min                     |
| Pour Point  | -6 max                      |
