automatic extenders, minimum-length 7

foo - bar foo - bar foo - bar foo - bar foo - bar

automatic extenders, minimum-length 3.5

foo - bar foo - bar foo - bar foo - bar foo - bar

automatic extenders, minimum-length 1

foo - bar foo - bar foo - bar foo - bar foo - bar

automatic extenders, mixed manual and automatic melismata, extender on last note forced to length 5

foo - - bar foo - bar foo - bar

automatic extenders, mixed manual and automatic melismata, first extender shortened, extender on last note forced

foo - - bar foo - bar foo - bar
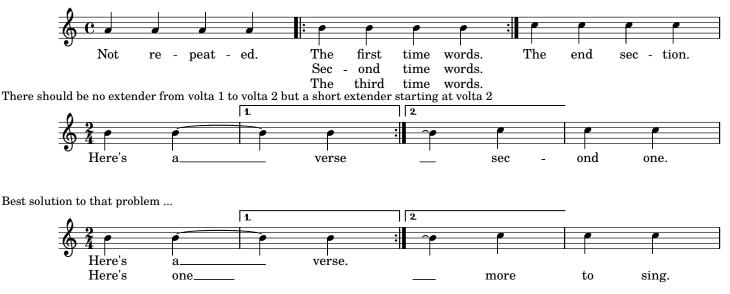

Issue 1006 revisited, last extender forced and tweaked to the left, minimum-length 2

of Prin - ces all the flow'r. Who took a- the flow'r.

Issue 1006 revisited, last extender forced and tweaked to the left, minimum-length 1

of Prin - ces all the_flow'r. Who took a- the_flow'r.

Here our melisma detection fails. We need to override.

Not re - peat - ed. The first time words. The end sec - tion.
Sec - ond time words.
The third time words.

There should be no extender from volta 1 to volta 2 but a short extender starting at volta 2

Here's a verse sec - ond one.

Best solution to that problem ...

Here's a verse.
Here's one more to sing.
