Short term position website designer/builder (Joomla)

Duty Station: Kampala

Deadline for applications: Tuesday September 14, 2010

Contract duration: Starts immediately for a period of 2 weeks

Context:

WOUGNET is seeking an experienced website designer/builder to assist the WOUGNET Technical Support Team in redesigning the WOUGNET website (www.wougnet.org)

Description of duties:

Main duties of the function will include collaborative work with the WOUGNET team on the website to;

1. Upgrade the version of Joomla used
2. Change the layout of the website
3. Address security loopholes to guard against hackers

Additional duties may be assigned as mutually agreed, if deemed necessary for the successful completion of the project

Level of study/experience/skills:

- Experience in designing/building websites using Joomla (provide examples of your work)

Please submit your application to techsupport@wougnet.org not later than **12:00noon on Tuesday 14th September 2010**. Please indicate your availability, links to sites you have designed and an indication of your remuneration.
