

Information Systems Director / Chief Information Officer

InfoPartners is recruiting an IS management professional for permanent placement within our *IS Management Partnership* service. This is an InfoPartners position supplied full-time, on-site to our client. Located in the beautiful DownEast/Acadia Maine region, this community hospital is a major employer of the area. The hospital offers services and clinics to a widespread multi-county constituency. Organizationally, this key director-level position reports to the hospital's Chief Financial Officer. The current progressive IS team enjoys strong management support.

InfoPartners seeks an IS management professional with hospital systems and management experience, including clinical and financial systems and network administration. The individual must demonstrate an ability to manage large, complex systems implementation projects that involve multiple stakeholder groups and have excellent interpersonal and communications skills. Experience with Meditech systems is strongly preferred. A bachelor's degree and applicable experience is required.

Founded in 1986 to serve the needs of community hospitals, InfoPartners offers a full range of management and consulting services to its clients. Using a collaborative and advocate-driven service philosophy, our unique *IS Management Partnership* service currently serves 31 hospitals across the eastern half of the U.S. To learn more about InfoPartners, visit www.infopart.com.
