

Job Opening at UberLogic Solutions

Uberlogic Solutions is looking for talented web designers to join our team. If selected, you will be joining a small team of very talented people, effectively getting on the ground floor of a startup, but without the startup risks!

This position requires somebody spectacular! You don't necessarily need to be someone who fits into a corporate culture (as we have no physical office), but you have to be an absolutely incredible web designer with a passion for great web design with the ability to get things done very quickly and adhere to tight schedules.

What we are looking for:

- Proven experience designing dynamic website content
- Experience with Flash, AJAX and other web technologies
- Knowledge in Adobe Photoshop/Illustrator
- Motivated, self-starter who meets deadlines

Key Qualifications:

- Experience designing for multiple mediums
- Expert Adobe CS Skills (Any combo of PS/AI/FW)

Nice-to-have's:

- HTML & CSS proficiency (w3-compliant)
- Experience designing within existing platforms

What will be valued:

- Creative ways of looking at things and coming up with new ideas
- Respects the thought of working in a group

So, you think you could pitch yourself in? Get in touch with us with a copy of your resume (with portfolio, if you have any) > jobs@uberlogic.in

When applying, include your mobile number as well. If we find you interesting and you reside in or around Trivandrum you might be called in for a short meeting over lunch/dinner (which will be entirely on us).

About UberLogic

Early on, from its inception UberLogic has been a firm that is driven by sheer innovation and the passion for the web medium. We play it simple and bend the rules of code and design, and would like that mantra to stay.
