You are invited to attend an exhibition of Contemporary Art and Design by students graduating from Foundation Degree Digital Art and Design and BA (Hon's) Art and Design Practice as part of the Writtle School of Design end of year Degree Show.

Students are showcasing work in a diverse range of contemporary disciplines from video, interactive art and design, installation, illustration, photography, information design, printmaking and sculpture.

The degree show is a celebration of the creativity, energy, ambition and achievement of all graduating students. The exhibition represents two or three years of learning, research and creative development by Art & Design students in the unique context of Writtle School of Design. Visitors can also view work by students graduating in Landscape & Garden Design, Landscape Architecture, Interior Design and Interior Architecture courses, shown across three venues in close proximity to each other.

Refreshments will be served on Wednesday 18th May for the Private View, and the exhibition continues and is open to the general public through the day on Thursday 19th May.

We welcome creative industry employers, gallery owners, journalists, photographers, TV crews, friends, family and members of the general public. Students value opportunities for work-experience with local creative professionals. Some work will be available to purchase.

WSD's Degree Exhibition is a wonderful opportunity to visit the college and be inspired by the talent and passion of our students in a beautiful rural setting.

Staff and students look forward to meeting you.

If you have any questions about the Graduate Show at Writtle School of Design please call School Administrator: Martine Howlett 01245 424200.
